Student Welcome

Our current Year 7 pupils would like to welcome you to St Paul's Way Secondary School.

Dear Year 6s,

Hi, my name is Eliza and I am a student here at SPW. When I first joined the School Council, I was really nervous because I was new to the school and meeting different people from other years because of my position as Year 7 Rep. Even though I was anxious, I introduced myself and made lots of new friends in the School Council. It has really improved my experience here at SPW. I have done many workshops, helping students feel safer when travelling and even performed an assembly to the Y7's which was fun.

Student Welcome

Our current Year 7 pupils would like to welcome you to St Paul's Way Secondary School.

Dear Year 6s,

Welcome to SPW Secondary School! Don't worry if you are nervous, everything will be just fine. Here in SPW there are clubs you can go to after school, inter form (sometimes), and there are a lot of fun experiments in science! Just like your primary, there will be the same year, but different classes. You may have had three different classes of the same year in your primary school (like mine), but instead of three, there's nine! The years range up from Y7 – Y11, and Y12 – Y13 are sixth form but still in this school. The forms range from A – I. Now this is the fun bit. You get character points! You may get a character point if you do something related to: Aspiration, Integrity, Community. And each form has a race with character points for a 'tutor cup'. Whoever's form has the most character points gets the tutor cup and a pizza party! Don't worry if you don't win, you can always try again in the next half term!
We can't wait to see you in September!

I know what a big change it is from primary to secondary, but it is a good one. In secondary you will have so many opportunities to express yourself in many subjects such as music, drama, sports and many more. I am a music scholar and have taken the opportunity among others to learn multiple instruments and have gained many friends in different year groups because of this scholarship. But if you do not like music there are plenty of other opportunities in many co-curricular activities.

Aniss Mohammedi - KS3M

You might be nervous to go to Year 7 but it isn't as bad as you think. My experience as a Year 7 has been interesting. There are a lot of new books, clubs and people to meet. There is a great library, Sports Hall and a Graphics area where you can play games and do Homework. I have met a lot of amazing friends and I enjoy going to Science and Coding Club. I hope you consider coming here. It's been a great year so far!
