Policy Aims, Ethos and Context

Policy Aims & Ethos

The main aims of our Relationships, Health and Sex Education policy are:

1. To safeguard pupils effectively; St Paul's Way Foundation School is committed to putting safeguarding at the heart of everything we do and this includes teaching Relationships, Health and Sex Education to pupils.
2. To teach this content as outlined by statutory documents from the Department of Education (DfE) and comply with the relevant provisions of the Equality Act 2010.
3. To ensure pupils are able to keep themselves safe by teaching factually accurate information so they can make informed decisions.
4. To ensure children understand the changes to their body as they grow and develop and are supported to behave in a mature and responsible way as they grow and get older.

Definition

Relationships, Health and Sex Education supports the overall healthy development of pupils, including emotional, social and physical development, and supports the safeguarding of pupils.

All content is taught in an age-appropriate way. This policy details the specifics of the content taught in the Foundation School.

In the Foundation School, we use the term 'Relationships and Health Education (RHE)' to refer to these lessons with pupils. This reflects that Relationships Education and Health Education are statutory and compulsory to be taught in primary school.

Context

“Today’s children and young people are growing up in an increasingly complex world and living their lives seamlessly on and offline. This presents many positive and exciting opportunities, but also challenges and risks. In this environment, children and young people need to know how to be safe and healthy, and how to manage their academic, personal and social lives in a positive way.”

Relationships Education, Relationships and Sex Education (RSE) and Health Education: Statutory guidance for governing bodies, proprietors, head teachers, principals, senior leadership teams, teachers (2019) – Secretary of State Foreword, Pg. 4

Curriculum Content from Summer Term 2021 Onwards

This section of the policy outlines the content which will be taught at St Paul’s Way Foundation School from the Summer Term 2021, as part of our PSHE curriculum (Relationships Education and Health Education, and Sex Education in Year 6), and as part of our Science curriculum. This content is in line with statutory guidance from the DfE, and with recommendations and guidance from London Borough of Tower Hamlets (LBTH).

Relationships Education and Health Education are compulsory and statutory to be taught in the primary school. Sex Education topics are covered in Year 6 as per DfE and LBTH recommendations. Parents have the right to withdraw their child from the Sex Education lessons.

Further details about each of the topics covered can be found in Appendix 1 (LBTH Primary Schools RSE Mapping Document). The content taught within Relationships Education, Health Education and the National Curriculum for Science are statutory as per DfE guidelines.

Document Control

Date	Version	Comments
10 th March 2021	4	

Relationships Education (Statutory)

- Families and People Who Care For Me
- Caring Relationships
- Respectful Relationships
- Online Relationships
- Being Safe

Health Education (Statutory)

- Mental Wellbeing
- Internet and Safety Harms
- Physical Health and Fitness
- Healthy Eating
- Drugs, Alcohol and Tobacco
- Health and Prevention
- Basic First Aid
- Changing Adolescent Body

National Curriculum for Science (Statutory)

DfE statutory guidance surrounding Relationships and Health Education (RHE) makes reference to learning that already takes place in Science lessons as part of the National Curriculum:

“The content set out in this guidance covers everything that primary schools should teach about relationships and health, including puberty. The national curriculum for science also includes subject content in related areas, such as the main external body parts, the human body as it grows from birth to old age (including puberty) and reproduction in some plants and animals”.

Relationships Education, Relationships and Sex Education (RSE) and Health Education: Statutory guidance (2019) – Pg. 23

Document Control

Date	Version	Comments
10 th March 2021	4	

“At key stages 1 and 2, the national curriculum for science includes teaching about the main external parts of the body and changes to the human body as it grows from birth to old age, including puberty”

Relationships Education, Relationships and Sex Education (RSE) and Health Education: Statutory guidance (2019) – Pg. 23

As part of the National Curriculum for Science, pupils are taught to:

Key Stage 1:

- identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense.
- notice that animals, including humans, have offspring which grow into adults
- describe the importance for humans of exercise, eating the right amounts of different types of food, and hygiene

Key Stage 2:

- Year 5: describe the changes as humans develop to old age
- Year 6: recognise that living things produce offspring of the same kind, but normally offspring vary and are not identical to their parents

Sex Education (Non-Statutory)

- How a baby is conceived and born
- FGM

In line with DfE recommendations, at St Paul's Way Foundation School these topics will be taught in **Year 6 only**. Parents have the right to withdraw their child from the Sex Education aspects of the curriculum content.

Document Control

Date	Version	Comments
10 th March 2021	4	

Monitoring, Evaluation and Assessment

Monitoring and Evaluation

The subjects will be monitored and evaluated in the Foundation School by the Curriculum Leader for PSHE, the Assistant Headteacher (Curriculum), as well as the wider Senior Leadership Team. It is important these subjects are consistently monitored to ensure confidence levels of teachers are maintained and the delivery and content is consistent across the school.

Assessment

To support the effective teaching of RHE, the school will use teaching resources from a scheme of work which has been recommended by the London Borough of Tower Hamlets Healthy Lives Team and is matched to the DfE Statutory Guidance. This includes resources to support teachers in assessing pupil's prior knowledge, as well as their learning and progress within lessons. The school will evidence pupil's learning through the use of our PSHE/SMSC floorbooks, and children's individual Science books where appropriate.

The Right to Withdraw, and the Withdrawal Process

There is no parental right to withdraw from Relationships Education, Health Education or the National Curriculum Science lessons as these are a **statutory part of the curriculum**.

Parents do have the right to withdraw from Sex Education topics, which are **non-statutory**, such as *how a baby is conceived and born* and *FGM*. At St Paul's Way Foundation School we respect this right. **In SPWF, these topics are taught in Year 6 only.**

Document Control

Date	Version	Comments
10 th March 2021	4	

In line with DfE guidance, parents who wish to exercise their right to withdraw from **non-statutory** elements will be required to arrange an appointment to discuss their decision with a member of SLT or the Curriculum Lead for PSHE.

Equality and Safeguarding

Equality

The school is committed to following the Equality Act 2010 and to tackling sexism, misogyny, homophobia and gender stereotypes.

LGBT

The London Borough of Tower Hamlets (LBTH) recommends teaching about LGBT relationships, in the context of different types of families, in order that children coming from same sex families feel welcomed and included in school, from the very beginning of their school career, in Key Stage 1. It is also important in terms of tackling homophobic behaviour and bullying and demonstrates LBTH's commitment to equalities, as outlined in the Equality Act.

At St Paul's Way, we are committed to protecting children and families against discrimination, whether knowing or unintentional. This includes discrimination against people's religion, culture or sexuality, to name just a few of the Protected Characteristics in the Equality Act. The Department for Education statutory guidance strongly encourages and enables schools to teach LGBT content, in the context of different types of families.

Document Control

Date	Version	Comments
10 th March 2021	4	

We are therefore following the LBTH recommendation with regards to LGBT content, in the context of different types of families. With due regard to all relevant evidence we have chosen to place LGBT content, in the context of different types of families, into the statutory part of the curriculum in Key Stage 1 (by the end of Year 2). Children will learn that families sometimes look different from their own, but that all families are characterised by love and care.

Naming of Body Parts

LBTH recommends that children are taught in Key Stage 1 about naming of body parts, including private body parts, as a safeguarding issue. This is so pupils can report abuse if it happens or so that they can accurately report medical symptoms if they are unwell. The more children are able to name the private body parts and to know about appropriate and inappropriate touch, the more they are protected from abuse.

Pupils will also be taught about stable, caring, healthy family life and friendships and how to recognise if or when relationships are making them unhappy or unsafe. Lessons will cover staying safe both online and offline, how to identify risks online, harmful online content and contact and how to report it. Pupils will also learn how to seek help and advice from others.

LBTH also recommends that lessons about puberty begin in Year 4, to prepare children for puberty and menstruation for girls, before it occurs.

At SPWF, we have chosen to place the naming of the private body parts into the **statutory part of the (Relationships Education / Science) curriculum in Key Stage 1** (by the end of Year 2), as part of our commitment to safeguarding and supporting children's overall healthy development.

Document Control

Date	Version	Comments
10 th March 2021	4	

The following words are recommended to be taught in Key Stage 1:

- Penis
- Vulva
- Breast / Nipples
- Anus / Bottom
- Testicles
- Vagina

In Key Stage 1, children will not be taught the reproductive function of any body parts. Children will be taught that these areas are private body parts and how to keep themselves safe.

SEND and Inclusion

The delivery of the content will be made accessible to all pupils, including those with SEND. The Curriculum Leader for PSHE and the Inclusion Manager for SPWF will support teachers to ensure they are confident teaching the content to all pupils, including those with SEND.

Disclosures

In the event of any safeguarding disclosures or concerns, staff should follow the schools agreed safeguarding procedures.

Document Control

Date	Version	Comments
10 th March 2021	4	

Teaching and Resources

Resources

St Paul's Way Foundation School is committed to using scientific diagrams, rather than pictures during RHE lessons. Each lesson is carefully structured and delivered in an age appropriate manner. Where appropriate and possible, the Curriculum Lead for PSHE will organise for some specific content to be taught as single-sex lessons.

To support the effective teaching of RHE, the school will use teaching resources from a scheme of work which has been recommended by the London Borough of Tower Hamlets Healthy Lives Team and is matched to the DfE Statutory Guidance. The curriculum leader for PSHE will ensure teachers are able to use the scheme effectively, and that any content that is not relevant or appropriate to the specifics laid out in this policy are adapted/omitted as necessary.

Our school is also committed to holding information meetings to show parents the resources and lesson content before the commencement of RHE lessons where possible. In exceptional circumstances where this is not possible, the school will endeavour to communicate as effectively as possible with parents regarding the resources and lesson content.

Children's Questions

Teachers will ensure any of the children's questions that are answered in the classroom are age-appropriate and relate to the curriculum content being taught in the lesson, for example through the use of anonymous question boxes. Teachers will not answer questions that are not age-appropriate and/or do not relate to the Statutory curriculum content as set out in this policy.

Document Control

Date	Version	Comments
10 th March 2021	4	

Consultation, Partnerships and Responsibilities

In developing the statutory guidance, the DfE carried out a public 'call for evidence' which received 23,000 responses from parents, young people, schools and experts in relevant fields; this was followed by a public consultation, which received over 40,000 responses. The DfE carried out national consultation including a range of faith, community and social organisations.

The guidance published by the DfE is statutory and therefore as a school we have a legal obligation to teach the curriculum content required.

The LBTH Healthy Lives Team have also worked with local parent, community and faith groups to ensure they have engaged with the requirements of the RHE curriculum.

Parents, Carers and Families

At SPWF, we are committed to maintaining our strong partnerships with parents, carers and families. Due to COVID-19, parent consultation was carried out online. All parents at the Foundation School were invited to submit their responses and these responses have informed us in our considerations for how RHE will be delivered at the Foundation School.

As part of our partnerships with parents, we will hold parent information sessions regarding the specific RHE curriculum content, including resources used to deliver lessons, in each year group. Within these information sessions, we welcome parents asking questions to clarify their understanding of our RHE provision and how the lessons are delivered.

Our RHE policy will be made available on the school website, as per DfE guidance, and a copy can be made available to anyone who requests one.

Governors

Governors, in conjunction with the Headteacher and SLT, ultimately make the decision about which resources are used to teach RHE and how RHE is taught within the school, through their reviewing and approval of our school's RHE policy. The Governing Board will approve this policy and hold the Headteacher, Senior Leaders and Curriculum Leaders to account for its implementation.

The DfE guidance (2019) provides further clarification as to the role of Governors:

"In addition to fulfilling their legal obligations, the governing boards or management committee should make sure that the subjects are timetabled, accessible to all pupils, including pupils with SEND (preparing for adulthood outcomes). Governors will oversee that subjects are well-led, staffed and lessons are resourced, so that the schools can fulfil its legal obligations. Also ensuring that pupils make progress and the curriculum has regular and effective self-evaluation built in. Governors will also ensure that clear information is passed onto parents about subject content, as well as informing parents about the right to request that their child is withdrawn from the non-statutory content. "

Headteacher

The Headteacher is responsible for ensuring that RHE is taught consistently across the school, in line with this policy.

Curriculum Lead for PSHE and Assistant Headteacher for Curriculum

The Curriculum Lead for PSHE and the Assistant Headteacher for Curriculum are responsible for supporting the Headteacher in ensuring staff understand this policy and are able to implement it consistently throughout the school. They will provide resources and training to staff, and be available to offer further support for teachers regarding teaching and learning. The Curriculum

Document Control

Date	Version	Comments
10 th March 2021	4	

Lead for PSHE and Assistant Headteacher for Curriculum will lead on managing requests from parents to withdraw children from Sex Education lessons, with support from the Headteacher.

Staff

The school holds staff meetings and training on RHE to ensure that all staff feel confident to deliver this content, and have the opportunity to ask questions relevant to our RHE policy and provision. CPD for teachers is organised and led by a range of professionals, including LBTH Healthy Lives Team, Senior Leaders from within the school, and the Curriculum Lead for PSHE. The Curriculum Lead offers support and guidance to teachers surrounding planning, teaching and assessing RHE and ensures the quality of lessons is monitored. Staff are responsible for ensuring they have read and understood the RHE policy, and deliver RHE lessons in a sensitive and professional manner that supports this policy and uses the resources provided to them by the Curriculum Lead for PSHE. Staff should seek support from the Curriculum Leader for PSHE or the Inclusion Manager if they need support in responding to the needs of individual pupils within these lessons. Staff who have concerns about teaching RHE lessons will be encouraged to discuss this with the Curriculum Lead for PSHE, or the Headteacher. Staff will have the opportunity to give feedback related to RHE, including feedback on training, support and lesson delivery in the classroom. This evaluation will be used by the Curriculum Lead for PSHE to inform and identify training needs and ways in which RHE provision can be enhanced further.

Pupils

Pupils will be enabled to engage positively in RHE lessons through teacher's use of 'Ground Rules' at the beginning of lessons. These include no personal comments, stories or questions; using anonymous question boxes where possible; using scientific language where possible; and treating all other members of the school community respectfully.
